

## ESPACIO DUCHA

*Shower space*

## ECOTECH

La mejor manera de entender sus propiedades, es comparándola con una teleducha convencional:

El diseño de PULVERIZACIÓN ECOTECH agrupa el agua, la acelera y la distribuye de manera uniforme, mientras que un ducha convencional siempre tiene corrientes unidireccionales, lo que resulta en una pérdida de fuerza de pulverización.

The best way to understand its properties is to compare it with a conventional hand shower:

The ECOTECH SPRAY design, joins the different sprays of water, accelerates and distributes it evenly, while a conventional shower always has unidirectional currents, resulting in a loss of spray force

**EXCLUSIVO DISEÑO DE BOQUILLA DOBLE:**  
Permite que las corrientes de agua se crucen entre si.

**EXCLUSIVE DOUBLE NOZZLE DESIGN:**  
It allows water currents to cross each other.

**COBERTURA DE AGUA COMPLETA.**  
Las poderosas corrientes de los chorros, proporcionan una cobertura de agua completa, una experiencia de ducha sensorial.

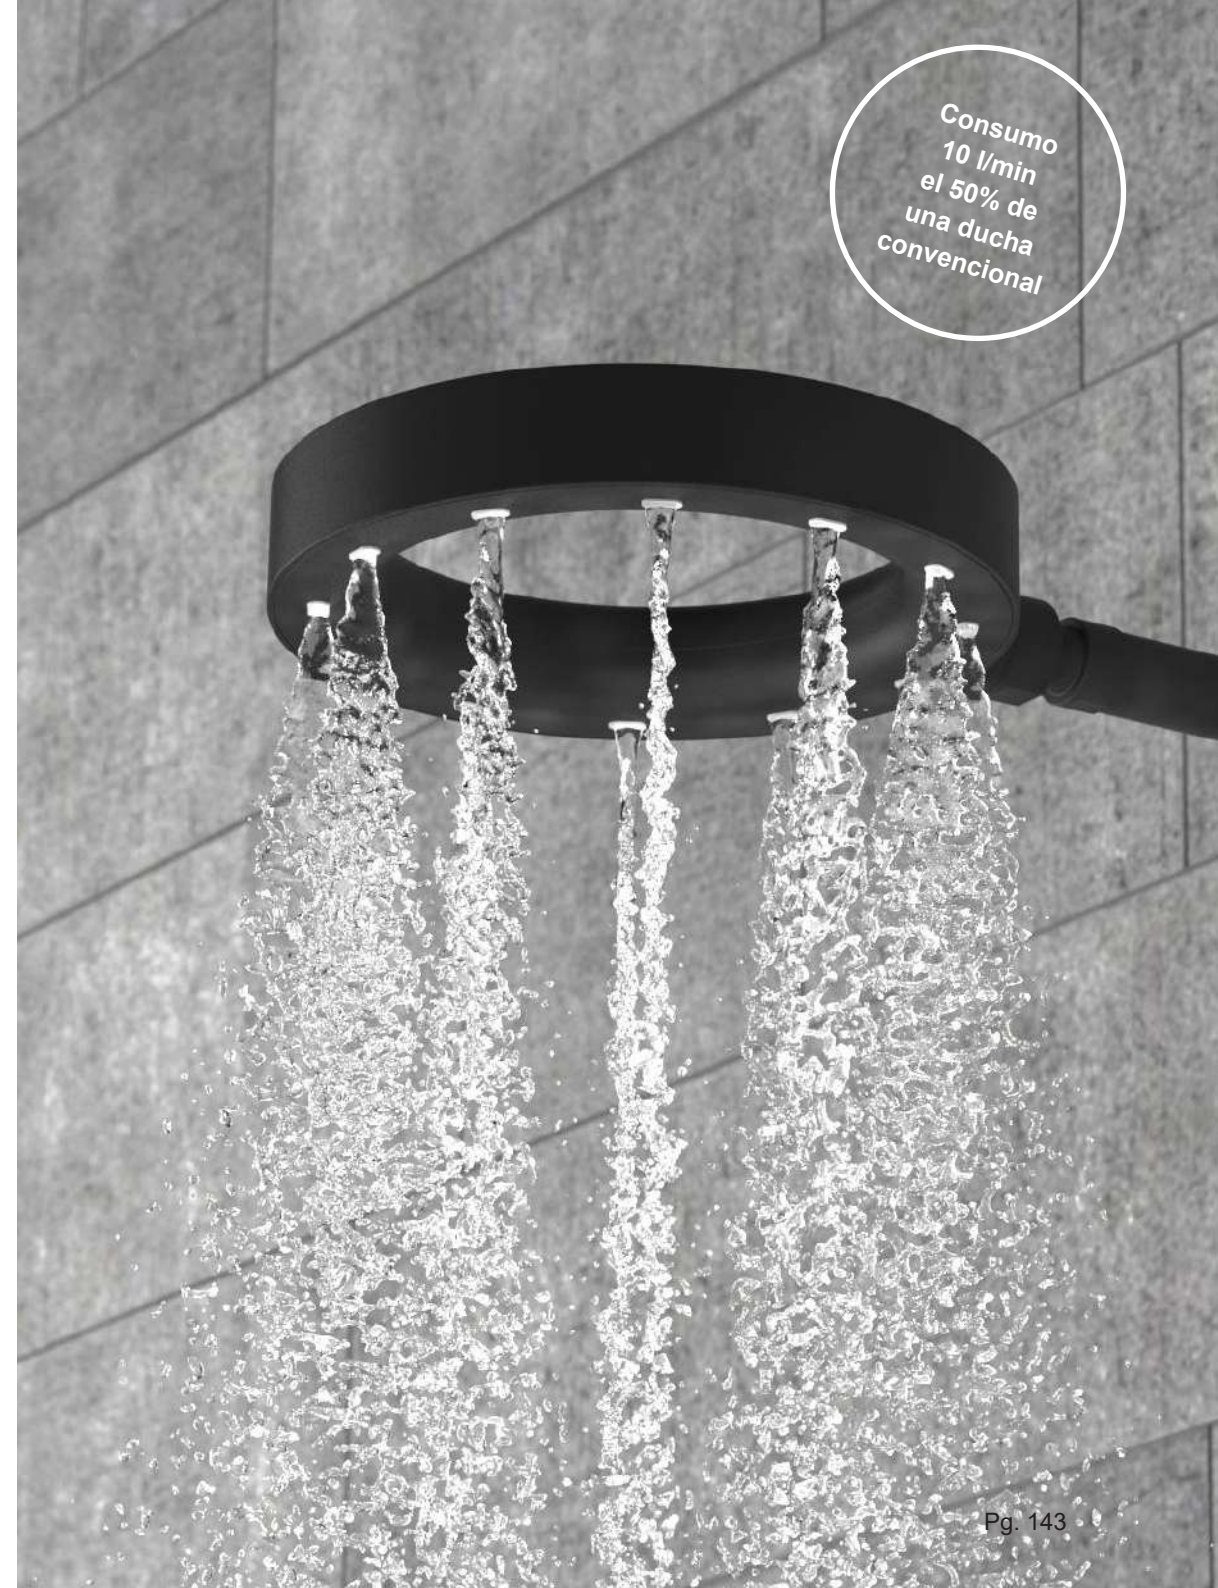

**COMPLETE WATER COVERAGE.**  
The powerful streams of the jets provide complete water coverage, a shower experience that increases your senses.

**PULVERIZACIÓN AUMENTADA.**  
Es el resultado de la forma que adopta el agua mediante las corrientes de aire generadas.

**INCREASED SPRAYING.**  
It is the result of the form that water takes through the air currents generated.
