Saving elements

To adjust flow rates or water and energy-saving systems to your needs, please contact our sales team:

comercial@marti1921.com

limited FLOW

Consumption of 5 liters per minute to avoid excessive water use.

double position OPENING

Consumption in 1st position 2.5 liters/minute
Consumption in 2nd position 5 liters/minute

cold OPENING

Hot water from the tank is not used, the gas water heater does not turn on, the oil boiler does not activate, therefore there is no unnecessary energy consumption.

CATALOG 105

104 years of history, design, and innovation.

Marti1921 turns 104 years old. A milestone that reaffirms our commitment to quality, design, and sustainability, rooted in a family and Spanish identity.

Thank you to everyone who has been and is part of our team, and to those who place their trust in us every day. This story is possible thanks to you.

Since 1921, we have overcome challenges, anticipated trends, and maintained a clear vision: to create solutions with style, efficiency, and respect for the environment.

Today, present in 57 countries and with the fourth generation ready to continue the legacy, we keep working with the same passion as on the first day.

Thank you for being with us.

The Marti1921 Team

BioCaudal FAUCETS

SAVE AND PROTECT THE ENVIRONMENT WITH OUR
BioCaudal
FAUCETS for Bathroom and Kitchen spaces

Our savings elements help earn points in the BREEAM®, LEED, and VERDE
methodologies

COLD OPENING

Prevents using hot water unintentionally.

DOUBLE-PHASE OPENING

Intuitively helps regulate the flow.

LIMITER FLOW

Faucet designed for a consumption starting from 2.5L/min

Pioneers in the world of design and finishes for faucets, setting trends and establishing new aesthetic concepts for integrating these items into Bathroom and Kitchen spaces. Since our beginnings, we have led innovation by offering a wide range of colors in the variants of each process.

This year, we take a step further with the launch of 2 new finish lines:

RAL PASTEL_10 selected finishes from the RAL chart, aimed at creating a harmonious visual experience in each space, ideal for the style lines that are gaining strength in decoration.

CUPRA METALS_3 shades; EXCLUSIVITY AND DURABILITY. Another level of finish.

Finish legend

Check with us for the finish you want for any faucet.

Our Projects team is at your disposal, proyectos@marti1921.com

THERMOSTATIC SET EVOLUTION | RTT

100% Brass

They are the ideal complements to the models in the selection range.
 Their attributes are not just the lines... Absolutely everything is made of brass.
 Brass is very important in shower faucets (a material with antibacterial properties),
 high resistance to corrosion even in high salinity conditions, and durability against wear.
 All their finishes and functions exceed UNE-EN 1111 standards.

SELECTION RETRO RANGE

PAGE 105

We maintain the model that takes its name from the year our brand was founded. Balanced aesthetics. Its main attribute lies in the variety of thermostatic bath and shower models, a showcase of handcrafted design combined with advanced technology. A sure success for a décor that seeks contrasts..

GRANADA

ACERO INOXIDABLE

STAINLESS STEEL

Inspired by its chrome counterpart, this model's main feature in your kitchen is its water-saving (bio-caudal) system, thanks to its cold-start mechanism (which also saves energy) and dual-phase operation, along with a flow limiter. It's a small feat of engineering aimed at saving water without compromising usability.

FOR OSMOSIS SYSTEMS

Contact between reverse osmosis water and metallic materials can have significant negative effects, especially in terms of accelerated corrosion and material wear. At Marti1921, we are aware of these risks and constantly work to ensure that our products are durable and functional in environments where reverse osmosis water is used. Through the appropriate selection of materials, the use of protective coatings, and the control of water conditions, we can guarantee the highest quality and longevity of our products.

MRT **Osmosis** Adjustable

CañoFuncional / EASY CLEANER

Discreta revolucion de ingeniería. Auna a su figura envolvente la magia de su configuración, discreta y útil para el uso de la grifería adaptada a la osmosis. Sus características sanitarias son muy relevantes. Vea en nuestra web las informaciones para este tipo de grifería.

CARABELA **RetroStyle**

WHEN MARTÍ LAUNCHED ITS CARABELA MODEL IN 1947, IT REPRESENTED A CLASH BETWEEN THE MODERNIST TRENDS OF EARLY 1920S EUROPE (SO HIGHLY REGARDED TODAY) AND THE NASCENT MODERNISM OF THE TIME. WHILE PRESERVING ITS ESSENCE, WE HAVE ADAPTED IT TO ITS INTENDED USE.

MORE EVOCATIVE AND APPEALING.

Centennial Exhibitor

EXHIBITOR: EXPREMIUMX4

Measures: 180 x 120 x 40

Exhibitor stand designed to showcase a shower set on the left side. On the right side, there are six shelves for six faucets. The selection is always at the customer's discretion.

The faucets are shipped on individual methacrylate stands so the customer can easily display them in the bathroom.

The lower section can be used to store 12 faucets for display purposes.

METHACRYLATE

Transparent methacrylate base for individual faucets

EXHIBITOR: PEANAMETRA

Measures: 12 x 8 x 1

Transparent methacrylate base for individual faucets, so that the customer can conveniently display them in the bathroom environment.

GRADES:

GRADES:

TERMS OF SALE

1. General Terms:

Sales, purchases, and supplies to be carried out by SAN CARLO LUXURY BATHROOM, SL, and the receipt of an order by the buyer, imply acceptance of these general terms and conditions, except as expressly agreed otherwise, or in a separate order confirmation that constitutes a special condition.

2. Prices:

Those included in our price list, expressed in € (euros). These are suggested retail prices and do not include applicable taxes.

SAN CARLO LUXURY BATHROOM, SL reserves the right to modify its prices based on increases in raw materials or other production-related services, which will be duly notified.

3. Payment Terms:

In compliance with payment regulations, regarding payment terms in commercial transactions, the maximum term is 30 days from the invoice date, payable by bank receipt.

The early payment discount will only be applied to advance payments, and its nominal value is 2%. ANY OTHER PAYMENT METHOD EXCLUDES THE EARLY BIRD DISCOUNT.

4. Modifications:

SAN CARLO LUXURY BATHROOM, SL reserves the right to modify, cancel, or change any of its products in order to improve them, without this implying any compensation for damages.

5. Shipping:

ALL PRODUCTS TRAVEL AT THE BUYER'S OWN RISK.

In case of breakage, loss, theft, etc., the buyer must notify their insurance company.

- Shipments of €300 or more will be shipped free of charge throughout the Iberian Peninsula.
- Orders under €300 will incur a €10 shipping charge.
- For the Canary Islands, Ceuta, and Melilla, the minimum order for free shipping is €1,000. For orders under €300, the charge is €20 per package.
- For the Balearic Islands, the minimum order for free shipping is €600.
- For orders under €600, shipping is €20 per package.

6. Commercial returns:

These must be approved by the Sales Management of SAN CARLO LUXURY BATHROOM, SL.

RETURNS NOT SENT FREE OF CHARGE WILL BE REJECTED.

They will arrive with the authorization number issued by our Sales Department.

For all returns:

- Products from the same fiscal year: 10% depreciation.
- Products from the previous fiscal year: 25% depreciation.
- Products from two or more years prior: 50% depreciation.

Material is considered to be in perfect condition, both in its finish and packaging. Each damaged package will be depreciated by €3.

Discontinued material or material that cannot be reused will be refunded at the price per kilogram.

7. Warranty:

SAN CARLO LUXURY BATHROOM, SL offers a 2-year warranty with a 3-year commercial extension against all manufacturing defects.

The warranty covers manufacturing defects. It does not cover defects attributable to natural wear and tear, poor maintenance, or improper installation. The warranty does not cover damage caused by foreign objects carried by water, nor does it cover limescale buildup, whether external or internal. It does not cover mechanical blockages in thermostatic cartridges, electronic components, aerators, hand showers, or showerheads caused by the accumulation of foreign substances.

It does not cover damage to finishes caused by the accumulation of chemical compounds and inadequate protection after new construction or renovation.

A card accompanies each product unit, and each unit has its traceability code registered.

2-year limited warranty: thermostatic cartridges, timed cartridges, accessories, flexible hoses, hand showers, showerheads, shower supports and bars—in general, all components subject to wear. The warranty for public use installations is limited to 1 year, provided that Martí1921's installation guidelines are followed.

Under no circumstances are we liable for damages caused directly or indirectly by any defect.

The warranty does not cover damage caused by temperature drops that result in freezing and expansion of the liquid, leading to breakage.

The warranty is limited to 1 year for surface finishes other than chrome.

Under no circumstances are we liable for damages caused directly or indirectly by any defect.

By contacting sat@marti1921.com, or through our website www.marti1921.com, you will find solutions to the most common problems with your faucets.

Always attach the purchase invoice when making a claim.

8. Jurisdiction:

In the unlikely event of litigation, the parties submit to the courts of the city of Barcelona, expressly waiving any other jurisdiction.
